SUMMARY

Computer Science undergraduate with hands-on experience in machine learning, data preprocessing, feature engineering, model evaluation, and computer vision. Built projects spanning wearable-sensor research and on-device image classification. Seeking an entry-level AI/ML Engineer role.

EDUCATION

B.Sc. in Computer Science and Engineering
Jahangirnagar University, Bangladesh
CGPA: 3.66/4.00 (Up to 4th Year, 1st Semester). Final result awaited.

TECHNICAL SKILLS

Programming: Python, SQL, Dart, C/C++
ML: Scikit-learn, XGBoost, Random Forest, MLP, Classification, Regression
Data Science: NumPy, Pandas, Matplotlib, Data Preprocessing, EDA, Statistical Analysis
Deep Learning & CV: TensorFlow, Keras, CNN, Transfer Learning, TensorFlow Lite, Image Classification, Data Augmentation
Tools & Development: Jupyter Notebook, Google Colab, Git, GitHub, VS Code, Flutter, Django, Firebase, REST APIs

RESEARCH

Smart Rehabilitation Wristband: A Multi-Sensor Wearable Framework with Dual-Condition Alert Logic for Home-Based Wrist Rehabilitation Monitoring (Under Review)

Designed a multi-sensor rehabilitation-monitoring framework using IMU, surface EMG, flex, and PPG sensors with an interpretable readiness score and dual-condition alerts; evaluated through synthetic simulation (1,000 sessions; 301,000 observations).

PROJECTS

Flora Identify – Offline Flower Image Classification

Developed a cross-platform Flutter application that classifies flower species from camera or gallery images. Trained a CNN-based multi-class classifier and deployed it via TensorFlow Lite for fully offline, on-device inference. Github

Creator Hub – Multi-Vendor E-Commerce Platform

Engineered a full-stack multi-vendor marketplace using Django with role-based buyer and seller dashboards, product catalog management, order processing, and secure user authentication. Github

Hostel Companion – Personal Management App

Built a mobile application for daily and monthly expense tracking, note-taking, journaling, and goal setting, designed to support students' self-management and well-being. Github

LEADERSHIP & CERTIFICATIONS

Volunteer, National Collegiate Programming Contest (NCPC), Jahangirnagar University
Certification: Responsive Web Design – freeCodeCamp
